<sup>1)</sup> A+++ (highest efficiency) to D (lowest efficiency)

<sup>2)</sup> Energy consumption »X« kWh per annum based on 280 standard cleaning cycles using cold water and energy consumption in power saving modes. Actual energy consumption will depend on how the appliance is used.

<sup>3)</sup> Water consumption »X« litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used.

<sup>4)</sup> Energy efficiency class »X« on a scale from G (lowest efficiency) to A (highest efficiency).

<sup>5)</sup> This programme is suitable for washing normally soiled tableware. This is the most effective programme taking into account the total energy and water consumption for this kind of tableware.

The appliance meets the European standards and requirements of the directives in the current version at delivery:

- LVD 2014/35/UE
- EMC2014/30/UE
- EUP 2009/125/EC

The above values have been measured in accordance with standards under specified operating conditions. Results may vary greatly according to quantity, water hardness, amount of detergent and the level of tableware soil, etc. The manual is based on the European Union's standards and rules.

We reserve the right to make design and technical changes to the appliance.
